Full job description

Bluelight is a leading software consultancy dedicated to designing and developing innovative technology that enhances users' lives. With a steadfast commitment to delivering exceptional service to our clients, Bluelight excels in its focus on quality and customer satisfaction. Our mission is not only to create cutting-edge applications but also to foster a collaborative and enriching work environment where each team member can grow and thrive. With a presence across the United

States and Central/South America, Bluelight is in an exciting phase of expansion, continually seeking exceptional talent to join its dynamic and diverse community.

We are looking for a skilled individual to join our rapidly growing team at Bluelight. This position is ideal for someone who thrives in a fast-paced, dynamic environment where everyone's opinions and efforts are valued and appreciated. You will have the opportunity to contribute to challenging and meaningful projects, developing high-quality applications that stand out in the market. We value continuous learning, personal growth, and hard work, offering a collaborative environment that promotes professional development. If you are passionate about software development and eager to be part of a growing software consultancy, we invite you to apply and join us on this exciting journey.

What You'll Do

- Design intuitive, user-friendly web and mobile interfaces
- Build responsive websites and landing pages in Webflow with precision
- Collaborate with developers, marketers, and product teams to bring ideas to life
- Optimize designs with a strong focus on usability, accessibility, and performance
- Develop wireframes, prototypes, and high-fidelity mockups
- Ensure brand consistency across all digital assets
- Continuously improve designs based on data, feedback, and best practices

What We're Looking For

- 2+ years of experience in UI/UX design with a strong portfolio
- Proficiency in Webflow (CMS, interactions, animations, and custom code)
- Strong skills in Figma, Adobe XD, or Sketch for wireframing and prototyping
- Knowledge of HTML, CSS, and an understanding of web development best practices
- Experience with responsive design and mobile-first principles
- Strong problem-solving skills and attention to detail
- Ability to work independently and meet deadlines in a remote environment
- Bonus: Experience with motion graphics, branding, or SEO optimization

Company Benefits

- Competitive salary and bonuses, including performance-based salary increases.
- Generous paid-time-off policy
- Flexible working hours
- Work remotely
- Continuing education, training, conferences
- Company-sponsored coursework, exams, and certifications

Being a consultant in our team is a fun, challenging, and rewarding career choice. Your contributions are highly valued by clients, and the work you do often has a direct and significant impact on their business.

You will have the opportunity to work on a variety of projects for our incredible clients, which will accelerate your career growth. You'll collaborate with modern technologies and work alongside some of the best professionals in the industry!

If you're eager to be part of an exciting, challenging, and rapidly growing consultancy, we encourage you to apply. #LI-Remote
